Re: Support for 102,850 Square Foot Long Beach Airport Terminal Remodel

Dear Miss Reynolds,

My name is Kim Hank Lim. I live in Lakewood, about 1/2 mile west of The Lakewood mall between Paramount & Candlewood street. I am a frequent flyer from Long Beach airport to about 5 others states and 10 cities across United States as a Finacial Advisor. I feel this is more cost effective for City of Long Beach and Lakewood and for my business in terms time, cost and efficiency.

I support an improved airport terminal project that will provide adequate terminal space and parking while reducing air pollution and traffic congestion. I agree with the Long Beach Alliance position that the 102,850 square foot terminal with 14 airplane parking positions is the minimum size needed to accommodate the current and future passenger loads.

It is my hope that the City Council actively supports the current Environmental Impact Report (EIR) timeline and avoids further delays. It is time to push forward the plan for an improved terminal building at the EIR recommended size of 102,850 square feet. Please contact me back at 562-493-7688 or at my e-mail at luckeystudy@yahoo.com.

Best Regards,

K. Hank LIm
